Application for Mission Resource Conservation District Board

"What experience or special knowledge can you bring to your area(s) of interest?"

I have retired from a 30-year career as Executive Director of non-profit associations, serving under a Board of Directors. In this role, I also served as a Director on several Boards overseeing numerous employee benefit funds, apprentice training programs, and joint labor-management committees. I'm comfortable with financial statements and am familiar with government-required reporting for non-profits. I have many years' experience in negotiations, writing contract language, contract administration, dispute resolution and collaborative work among divergent interested parties. This is the professional experience I would bring to the table as a member of the Board of Directors.

On the personal side, I have strong concerns about farmland preservation, sustainable food supply, water conservation, soil conservation and reduction and management of waste in the environment. I have been a food gardener, composter, mulcher, and recycler since my teenage years, whenever my living situation would allow. My childhood years were mostly in third-world countries where very little goes to waste; a dramatic contrast to our disposable life here in the US!

I see service on the MRCD Board of Directors as an opportunity to fine-tune my own environmental sentiments, to align with others more experienced in the field and collaborate as part of a team to maintain and improve what we have and love in Fallbrook and in the surrounding North County region.
